## Tree-mendous Efforts : Green Earth, Bright Future

Green isn't just a colour—it's our lifeline

Leaves in their hands, joy in their eyes, Creating magic that nature inspires.

Inspired by leaves, skies, and soil, their poems grew with rhythm and soul.

Nature spoke, and the students listened,  
transforming blooming trees into beautiful  
poetry.

Inspired by nature's beauty, Vihaa International School celebrated Van Mahotsav week with a burst of vibrant activities—garden walks, leaf art, nature poetry, plant labelling, and spirited performances. Each moment deepened the student's connection with the earth and sparked a lasting passion for its preservation.
