## Letter Magic with Little Hands!

We formed our letters in fun new ways, With Blocks and sticks on happy days! Little fingers worked with cheer, Making each alphabet bright and clear!

Our Jr. KG learners had a fun-filled time exploring the world of letters through a hands-on Letter Formation activity!

Using different materials our little ones shaped and formed letters in the most creative ways.

This multi-sensory experience not only made learning exciting but also helped develop fine motor skills, letter recognition, and early writing confidence.

Watching the alphabet come alive through touch and play was truly magical!
