

"A, An, The – Fun with Articles!"

Grade 3 students had a lively “Articles” activity in class! Each student held a card with an article – a, an, or the – and had to find naming words that matched their article. The classroom buzzed with excitement as they moved around, matched words, and learned the correct usage of articles in a fun, hands-on way

**With a and an, we
start to say, The
helps us point the
special way.
Naming words we
love to find,
Learning with joy
and a curious
mind!**
