

# FRUITY - VEGGIE FUN SORT!

Fruits and  
veggies, bright  
and sweet,  
Sorting them was  
such a treat!

Colors and shapes we  
learned to see,  
Healthy foods for you  
and me!

Our little learners delighted in the “Fruity-Veggie Fun Sort” activity, where they explored the world of healthy foods. With bright baskets full of colorful fruits and vegetables, children eagerly sorted and grouped them with excitement. The activity not only made them familiar with different fruits and veggies but also helped build their observation, categorization, and fine motor skills. It was a fun-filled way to learn the importance of eating healthy while playing and discovering!
